

We're Hiring!

Seasonal Rental Department Associate

We're looking for a motivated and detail-oriented associate to assist in the rental department this summer! This seasonal job would span from May/June through August/September, 35 to 40 hours a week, and require working on Friday, Saturday, and Sundays. This associate must be able to lift 40lbs above their head, use the Windows Office suite, answer calls & emails, and be comfortable using basic tools.

After training, this associate will be able to describe our extensive rental fleet, share mapping resources, give directions, process reservations & sales, and assist with basic maintenance/safety checks. The job entails matching every customer to the bike that best fits them while considering their ability and comfort. Hospitality, patience, and enthusiasm are required to ensure safety and fit while reducing risk to our fleet.

Employees have access to purchase programs from dozens of our vendors for bikes, accessories, parts, and clothing. Plus, daily free use of our rental fleet, and opportunities to advance their skills with access to the largest service department in the city!
