## CURIOSITY PLACE SUMMER CAMPS

### June 23–27 | Twisted Tales...Twisted Tails?

Fairy Tales will come to life in this program where the animals from these beloved stories will take center stage. With a mix of fairy tale magic, creative expression, and nature exploration, this camp is perfect for kids who love storytelling, animals, and adventure. By the end of the week, they'll head home with new knowledge, creative crafts, and their very own fairy tale memories!

### July 7–11 | We "Dig" Those Bones!

Travel back into time to the age of the dinosaurs. This week young paleontologists will dig into the fascinating world of dinosaurs through activities, games and creative crafts. From roaring T-Rexes to the towering Brachiosaurus, campers will explore the science, history, and mystery of these ancient giants.

### July 21–25 | Super Sleuths

Put on your detective hats and grab your magnifying glasses-Supers Sleuths Camp is on the case! Kids will learn the skills of real-life detectives by solving mysteries using scientific techniques, critical thinking and teamwork. Each day, campers will face new puzzles and challenges, practicing their sleuthing skills through fun activities, experiments and games.

### July 28–August 1 | Wild Animal Superpowers Camp

Get ready for a wild and action-packed summer where superheroes meet their animal alter egos! In this exciting camp, kids will explore the incredible powers of their favorite heroes and discover the amazing real-life animals that inspired them. Through games, crafts, and hands-on activities, campers will unleash their creativity and learn about nature's true superpowers.

### August 4–8 | Around the World in 5 Days!

Pack your imagination and get ready for an unforgettable journey across the globe! This week, kids will explore different countries and cultures through fun games, creative activities, and hands-on art projects. Each camper will even create their own passport to stamp as they "travel" to new destinations throughout the week.

### August 11–15 | Make it, Take it

This hands on adventure is perfect for creative kids who love crafting, building, and exploring new activities. From painting and science experiments, to tie-dye and beading, campers will have the opportunity to create one-of-a-kind projects to proudly take home.

### August 18–22 | Camp-ology

Have a young scientist on your hands? This is the perfect camp for them! Kids will dive into a variety of fascinating sciences-including zoology, ecology, geology, anthropology, and meteorology. Each day will focus on a different branch of science sparking curiosity through experiments, creative activities and interactive games.
