

*The Michigan College Planning Solution
includes the following:*

~~Cost: \$500.00~~
Free for TCAPS Staff!
(Must show a valid TCAPS ID)

- [Complete College Planning Resource Binder](#)

This binder contains valuable resources including financial aid reference guides, student and parent loan information, college planning calendar, scholarship information, reference websites and important strategies. This binder can become the focal point of an organized approach over the life of your college planning. You will find that it accommodates college visit notes, application copies, college correspondence and much more.

- [Aid Eligibility Comparison Report](#)

This report will show your calculated Expected Family Contribution (EFC) and the award history of selected colleges in a head-to-head format. It will also forecast your out-of-pocket expense at each college. This report alone could save you thousands of dollars in errant assumptions about the true cost of college. Additional reports can include a detailed EFC projection and a “What will college cost estimate” report.

- [What-If Analysis](#)

Changes in a family’s financial structure may result in greater financial aid eligibility. This analysis will show how a specific change may impact financial aid eligibility. This report demonstrates the value of recommendations, and can allow you the opportunity to make more informed decisions.

- [College Quick Reference](#)

Consistently formatted data on more than 13,000 U.S. Colleges and Universities in an easy to digest and evaluate 2-page report. Up to 10 different reports are available upon request. These reports are key to accurate head-to-head comparisons. No single source provides a more convenient display of: Cost, Freshman Academic Profile, Size, Campus Characteristics, Extra-Curricular Clubs and Activities, Majors, Affiliations, Financial Detail, Award History, Admissions & Contact data.

- [The CVS System](#)

We developed the College Visit Scoring system to provide a way to measure how well every school you consider matches up to your student’s expectations. Using our scoring system and criteria ranking that is derived from the students educational objectives, you’ll have a method of evaluating schools that goes beyond visual impressions and prevents relying too heavy on recollection.

- [Retirement Ready or Not](#)

This process will provide you with a projection of your retirement readiness. Without this knowledge parents routinely OVERSPEND on college and find out too late that they have delayed or destroyed their retirement dreams.

- [A Copy of the Book “College and Retirement: You CAN Do Both!”](#)

Scott T. Moffitt’s book guides you through the confusing world of college planning. Mr. Moffitt, the President and Founder of College Planning Relief®, has compiled an easy to read guidebook that dispels myths about college planning and presents thought provoking strategies to consider while developing a plan to pay for college.
